Sec. 14-202. Bow Hunting.

Sec. 14-201. Feeding.

The City shall control the feeding of deer within the City as the practice may cause unsustainable growth, intensify deer population densities, decrease the overall health of the herd, increase the probability and occurrence of transferable diseases to humans within the area (e.g., Lyme disease), and actively encourages the presence of an urban deer population that aggravates other property impacts. No person shall intentionally feed, cause to be fed, provide for, or make available food or other substances for the consumption by deer within the City, either on private or public property. This section shall not apply to:

Sec. 14-202. Bow Hunting.

The City may allow limited and controlled bow (bow / archery / cross-bow) hunting within the boundaries of the City for the purposes of limiting the urban deer population that may cause a threat to the safety of vehicular travel, damage public and private landscaping, impact the health and regeneration of native vegetation, decrease the overall health of the deer population, and increase the risks of cervid disease transmission.

- (a) An area of public or private land(s), designated and authorized annually by the City Council, consisting of at least six (6) contiguous acres, located within the City of Montague, where limited deer hunting may occur. City staff shall make recommendations regarding appropriate areas, the number of hunters per area, and coordinate with private land owners as applicable. Two (2) adjacent landowners may jointly apply for a DMA together where one or both parcels alone do not meet the minimum acreage.
- (b) Licensed Hunting. Licensed bow / archery hunters, meeting the requirements established by the State of Michigan Department of Natural Resources (DNR), may hunt antlerless deer within those parcels of land designated as Deer Management Areas within the City of Montague, under all the following conditions:

The Chief of Police shall make final recommendations to the City Council. Hunters requesting a DMA, which encompasses private property, will also require the landowner's consent, to be obtained by the City, prior to issuance of a permit. The City Council, or the Chief of Police in consultation with the City Manager, shall at all times have the right to amend or revoke the permit granted.
 - (2) Hunting may occur only on dates designated by the DNR as bow / archery hunting season by persons who are at least 18 years of age and licensed for such hunting, and this license must be carried on his or her person. No person shall hunt within one hundred and fifty (150) feet from any building without written approval of the applicable owner.
 - (3) Hunters cannot carry an uncased bow within 100 feet of any residence, road, or building. Hunters must take all shots from a temporary elevated stand and shoot no further than 50 yards. Hunters shall receive approval of hunt location(s) and shooting direction / shooting lanes on each DMA through an on-site inspection to ensure public safety.
 - (4) Upon completion of the hunting season, hunters shall submit to the City the total number of deer taken, the dates hunted, and estimated number (and gender) of deer observed during the season on the DMA.
 - (5)* Hunters may be issued a second permit to hunt a buck on designated DMAs within the City of Montague by providing evidence (on-site verification) of the taking of an antlerless deer under issuance of the first permit. Hunters must meet and abide by all the requirements established by the State of Michigan Department of Natural Resources (DNR) regarding Antler Point Restriction requirements. Issuance of a second permit is at the discretion of the Chief of Police and City Manager; dependent on the overall number of permit requests and compliance with this Article.
- (c) Proviso. The City reserves the right to amend the hunter registration and selection process at any time; including but not limited to, number of hunters per parcel, residency, hunter competency, selection through a random process, or other criteria as deemed in the best interest of the City.

When the City abates a nuisance as provided herein, the cost of any abatement, including legal expenses and the authorized administrative fee will be billed to the property owner. The cost and fee will be a debt of the property owner of the City, which may be assessed as a single lot assessment in accordance with the City of Montague's Code of Ordinances, and shall constitute a lien against the property, including interest, until paid, and enforced and collected in the same manner as ad valorem property taxes.
